Trust Review

Given the weakness in offshore markets, the Australian market performed very well over the month to close nearly flat at -0.2%. The Resources sector led the way (+4.8%), driven by strong performances from BHP (+11.5%) and Rio Tinto (+7.1%), on the back of ongoing resilience in the iron ore price. CSL (4.8%), Star Entertainment (+4.1%) and Woolworths (+1.7%) also outperformed.

Our gold holdings performed well, with Newcrest (+5.1%) rallying on the back of the strong AUD gold price, which is nearing record highs. Further, this is a sector which is likely to experience significant consolidation and, in an uncertain world, Australia is an increasingly attractive location for mining investment.

Stocks which detracted from performance included Mining Services exposures such as Ausdrill (-17.9%). In our view, these companies are very well placed given the expected uptick in resources capex over the coming years, particularly in terms of major iron ore projects and new projects in the gold sector. Financials were also generally weaker, with the major banks down an average of -4.0% on housing market concerns, Clydesdale Bank (-8.0%) on Brexit worries and Janus Henderson Group (-7.9%) and Macquarie Group (-5.0%) on weaker global markets. These companies are trading on very attractive valuations and, in our view, offer significant long-term upside potential.

Trust Activity

During the month, we took profits and reduced our holdings in Woolworths, and exited our position in Boral. Proceeds were used to increase our holdings in a number of good value opportunities including Woodside and Aristocrat Leisure. At month end, stock numbers were 26 and cash was 8.9%.

Outlook

Following the recent sell-off, the market is now trading below its long-term average, with a one year forward P/E of 14.1x and offering an attractive gross dividend yield of over 6.0%.

Within the overall market, we are currently finding many good value investment opportunities. Across both the industrial and resources sectors, we are seeing many quality companies trading on attractive valuations which should deliver solid returns to investors from these levels.

The Trust continues to exhibit Perennial Value's true to label value characteristics, with the Trust offering better value than the overall market on each of our four valuation characteristics: price to earnings, price to free cash flow, gross dividend yield and price to net tangible assets.

As always, our focus will continue to be on investing in quality companies which are offering attractive valuations and have the ability to deliver high levels of franked dividend income to investors.
