Macquarie Group Ltd	MQG	7/24/2025	ShareHolder	5b	Shareholder Proposal Regarding Disclosure of Fossil Fuel Exposure and Net Zero Alignment	Against	For	Against Management	PVM are voting in favour of this resolution as resolution 5.02 is simply asking for i) disclosure of fossil fuel financing and ii) progress towards their net zero goals. These requests would bring them in line with disclosure expectations of other banks, align with regulations expectation and increase visibility in climate related financial risk. The view is that current disclosures don't provide a consolidated view on fossil fuel exposure, which lags the big 4, despite its public commitments to support an orderly transition. Macquarie discloses in adequate detail its renewable financing but doesn't do so for fossil fuel financing (of new oil and gas projects). It seems like a fairly reasonable, non-burdensome ask and would provide investors with better visibility on Macquarie's climate risk and whether they are on genuinely working towards their public commitments. Noting part of this ask will be covered by mandatory AASB reporting in the coming years.

James Hardie Industries plc	JHX	10/29/2025	Management	2	Remuneration Report	For	Against	Against Management	After review, the FY 2026 LTI's ROCE performance hurdles have been significantly lowered v's FY25 LTI's ROCE performance hurdles. After the AZEK acquisition, we are of the view that hurdles should not be lowered, as it is not in line with shareholder risk/return post the AZEK dilution. As pointed out by Glass Lewis, the CEO has minimal equity in the company – 31,585 share as at the time of the report - and once when putting this together with the STI component which is 100% cash along with one-third of the LTI which is also cash settlement, we are of the view that the CEO is not aligned with share holders.

James Hardie Industries plc	JHX	10/29/2025	Management	3a	Elect Gary E. Hendrickson	For	Against	Against Management	After review we agree with Glass Lewis recommendations that 1. JHX have excess NED's and if all the above were to depart there would be six remaining NED's. 2. Post the AZEK acquisition, the JHX board could do with a reset which would be beneficial to JHX shareholders. A reset of the board would see board members who are aligned with JHX CEO Aaron Erter at the time of the AZEK deal exit, thus giving shareholders more comfort that accountability for the AZEK acquisition will be more pronounced with the remaining NED's.

JHX have excess NED's and if all the above were to depart there would be six remaining NED's. 2. Post the AZEK acquisition, the JHX board could do with a reset which would be beneficial to JHX shareholders. A reset of the board would see board members who are aligned with JHX CEO Aaron Erter at the time of the AZEK deal exit, thus giving shareholders more comfort that accountability for the AZEK acquisition will be more pronounced with the remaining
